Hey CD14'ers,

Does this location bring anything to mind? See the below chain. We're planning to help coordinate through the UHRC but wanted to check with you first to see what you have done at this location already.

Thanks.

Brian

Thank You Matthew,

Danie and Katie, are you able to check AMS and see if there is a scheduled clean up and how many times LASAN has been there over the past few months?

Art, your team has been out to this location multiple times and I appreciate it. Please continue to do so as much as you can. We will also reach out to the Area Captain and SLO to ascertain what assistance they may need.

Brian, please see the below string of E Mails. Is it possible you can reach out to the Council District and get more clarity on their efforts and "study" that was mentioned?

Thank You All,

Emada

Hi Michael,

## Re: Clover Street meth village now tapping power...

Yes, our HOPE HET was there this Monday, 2/4, with the HOPE officers. Looking back, I can see that our NELA and HOPE teams have been conducting outreach at this location at least since April – sometimes with LAPD, LASAN and/or LADOT. We have had mixed success with engagements at this location.

In early January, the City had a CSLA comprehensive clean-up there, for which we performed outreach in December. In May of last year, multiple RV's were towed from this location.

I am adding Matthew Tenchavez, our UHRC Manager, who can help coordinate any City services that are being requested at this location. He'll bring this up at UHRC tomorrow.

Thank you,

Nathaniel/Donald,

Hello. Do you know if outreach/engagement is being conducted at the location described in the email below? This is in the City of LA so the CEO-LASD-LAHSA protocol does not apply; further, this is not an issue for HOST or their HETs.

Thanks,

Michael

Subject: Re: Clover Street meth village now tapping power poles and hydrants

Once again we are absolutely furious after yet another fruitless conversation with Matthew over at former Councilman Jose Huizar's office regarding the "Clover St. Meth Village". As usual our concerns and frustrations are met with pat answers such as, "We will look into that" or "We will follow up on that" or "We are working on a solution" or "We are waiting to hear back from\_\_\_\_", (fill in the blank with the name of any other ineffectual or worse yet, disempowered city department that is slowly kicking the political hot potato up or down the hall).

After OVER A YEAR OF CALLS AND EMAILS, we still haven't received any real help from the city that address actually stopping this problem on our street. There has been little progress AND NO LASTING RESULTS!

The RV encampment is still here. Piles of rotting garbage, tarps and tents are still blocking public access on the sidewalks.

More piles of human shit daily and a pervasive stench of urine. More needles. More drug deals. More screaming. More violence and fighting, (now with pipes, 2x4's, machetes, chains etc).

More trespassing. More theft from our property and our tenant's cars. More people complaining. More 911 calls.

Now the power poles have been illegally tapped to distribute stolen power to the RV's and tents via a cobbled web of extension cords crossing the street and/or laying in water. What water isn't coming from the rain, is a result of the runoff from the fire hydrant that has been opened up to create a water manifold of garden hoses via a soda bottle jammed into it. We call LAFD Station 1 to come over and recap the fire hydrant so often now that they know us by name.

## 5 of 11

9/27/19, 10:43 PM

Though several police cars and a DOT Trash truck came down yesterday, as of this morning there are still piles of trash and items for bulky item pickup, and the area by the Graffiti has a tent, barrels and boxes of trash and rubbish (photos attached), and on the other side of the street is a 10x20 shelter surrounded by trash and other tents next to the RV's.

Re: Clover Street meth village now tapping powe...

Please schedule a pickup as soon as possible.

-Christine Nash
